INSTRUCTIONS

WHO MUST FILE. Individuals who determine on line 17 of this form that their Nebraska individual income tax was not sufficiently paid at any time throughout the year must file Individual Underpayment of Estimated Tax, Form 2210N, to calculate the amount of penalty due.

WHO MUST PAY THE UNDERPAYMENT PENALTY.

An individual who did not pay enough estimated tax by any of the due dates or who did not have enough state income tax withheld may be charged a penalty. This is true even if you are due a refund when you file your tax return. The penalty is figured separately for each due date. Therefore, you may owe the penalty for an earlier payment due, even if you paid enough tax later to make up the underpayment.

In general, you may owe the penalty for 1997 if you did not pay at least the smaller of:

1. 90% of your 1997 tax liability; or
2. 100% of your 1996 tax liability (if you filed a 1996 return that covered a full 12 months).

Caution: If your 1996 adjusted gross income was more than \$150,000 (more than \$75,000 if you are married filing separately), you must use 110% of the prior year's tax instead of 100%.

EXCEPTIONS TO THE PENALTY. You will not have to pay the penalty if either 1, 2, or 3 applies:

1. You had no tax liability for 1996, you were a U.S. citizen or resident for the entire year, and your 1996 Nebraska tax return was (or would have been had you been required to file) for a full 12 months.
2. The total tax shown on your 1997 return minus the amount of tax you paid through withholding is less than \$300. To determine whether the total tax is less than \$300, complete lines 1-6.
3. Any of the underpayments were due to a provision of the Federal Taxpayer Relief Act of 1997. In such case, attach an explanation and schedule indicating how the underpayment occurred in this situation.

Nebraska Tax on Annualized Income. No penalty will be imposed if your Nebraska tax payments equal or exceed 90% of the Nebraska tax for a Nebraska tax liability based on annualized income earned through the end of the month preceding the installment date. Attach a separate schedule showing your computation similar to the federal Annualized Income Installment Method Schedule.

Other Circumstances. If your underpayment was due to a casualty, disaster, or where imposition of a penalty would be inequitable; or where the taxpayer retired after 62 years of age or became disabled, and the underpayment was due to reasonable cause, attach a statement to Form 2210N outlining why the penalty should not be imposed.

WHEN AND WHERE TO FILE. Form 2210N must be attached and filed with the Nebraska Individual Income Tax Return, Form 1040N.

SPECIFIC LINE INSTRUCTIONS

LINE 7, 1996 TAX. Use your 1996 tax after nonrefundable credits from your 1996 tax return. If the 1996 tax year was for

less than 12 months, do not complete this line. Instead, enter the amount from line 4 on line 8 and complete the remainder of the form. If federal adjusted gross income in 1996 was more than \$150,000 (\$75,000 – married separate), enter 110% of your 1996 tax.

LINE 9, INSTALLMENT PAYMENTS. If you filed your Nebraska income tax return and paid the balance of the tax due by January 31, that balance is considered paid as of January 15.

Fiscal Year Taxpayers. The installment due dates for fiscal year taxpayers are the 15th day of the following months: the first month of the second quarter, the third month of the second quarter, the third month of the third quarter, and the first month of the following fiscal year. All dates on Form 2210N are to be considered in the corresponding month of the fiscal year.

LINE 11, TAX WITHHELD. An equal part of the Nebraska income tax withheld during the year by your employer is considered paid on each required installment date unless you establish the dates on which withholding occurred and consider such withholding as paid on the dates when actually withheld.

For nonresident individuals, the amount of tax withheld by S corporations, partnerships, limited liability companies, or fiduciaries shall be considered paid on the last day of the organization's taxable year unless you establish the dates on which all amounts were actually withheld and consider such withholding as paid on the dates when actually withheld.

LINE 18, OVERPAYMENT. Any overpayment of an installment on line 18 in excess of all prior underpayments should be applied as a credit on line 12 against the next installment.

LINES 19-23, PENALTY CALCULATIONS. Complete lines 19 through 23 to determine the amount of the penalty. In determining the date of payment on line 20, use the date of the payment which was applied against the underpayment on line 19. See the instructions for Federal Form 2210 for more information. If you paid estimated tax on June 16, 1997, it was considered paid on June 15, 1997. The penalty is calculated at 9% per annum for all installments.

SPECIAL RULES FOR FARMERS AND RANCHERS.

If your gross income from farming, ranching, or fishing is at least two-thirds of your annual gross income from all sources for 1996 or 1997, and Form 1040N is filed and the Nebraska income tax paid on or before March 1, you are exempt from penalties for underpayment of estimated tax and are not required to file a Form 2210N.

1. **How to Figure Your Underpayment.** If the gross income test was met but the date for filing and payment of the tax was not, complete lines 24 through 31. If no underpayment is indicated on line 31, do not complete lines 32 and 33.
2. **Penalty Calculation.** Complete lines 32 and 33 to determine the amount of the penalty which is calculated at 9%.
